## **COURSE TIMETABLE BROWSER**

Course Timetable Browser allows staff and students to explore the possibility of taking different combinations of courses. It is a useful tool for staff when advising students on building their timetable and checking for potential clashes.

Course Timetable Browser can be accessed via the Timetabling channel in MyEd. You can access it through the dashboard on the left, via the tab 'Teaching' or add Timetabling channel to your Home page.

This channel is where users currently access Web Timetables and Web Room Bookings.

## Timetabling

- Choose "Course Timetable Browser" to browse multiple course timetables for clash checking
- Choose "Web Timetables" to access course, school, building and room timetables
- Choose "Web Room Booking" to make ad-hoc room booking request

21 X

On Course Timetable Browser, you can search for courses by codes, titles, key words and filter by School, Subject Area and a variety of other course attributes.

	Course Timetable Br	owser
ew course timetables		
view course timetables, simp	ly search for courses below and click the "+" ic	ons next to them. Once you're complete, scroll down
d you will see the courses yo	've selected: you can then generate a timetabl	le for the period you're interested in.

The selected courses then appear in the lower area of the selection page, where they can be viewed by choosing a semester or week and clicking the "View Timetable" button.

In the Timetable view, all whole class activities (e.g. compulsory lectures) will be expanded and viewable, but group activities (e.g. tutorials) will be compressed. Group activities can be expanded for more details and additional information will be provided by hovering over the option. You can also click 'Show all events' button at the top of the screen to view expanded versions of all options.
